MANUAL AND FASTPOLE CONFERENCE DISPLAY STANDS

The Conference Display is for use by Presenters, Public Speakers and Lecturers who require that little extra help to boost self confidence and enhance general presentation. The glass mounted above the Portaprompt monitor can either be free standing or contained within a lectern or desk (supplied by user) to suit the presentation.

FEATURES OF 2-PART MANUAL STAND

Almost invisible from front
Audience only sees clear glass
Adjustable height and tilt
Can be fed from any video source
10.4", 12.1" and 15" monitors

FEATURES OF FASTPOLE STAND

Unobtrusive
Quiet
Remote Control
For 10.4", 12.1" and 15" monitors
Speed: 0.15 - 0.5m/sec

FASTPOLE STAND

The Fastpole stand has all the features of the manual type but includes micro-processor controlled height with manual tilt. These functions become indispensable when a presentation involves more than one speaker, particularly if they are of different heights. Each speaker can adjust the height of the glass at rehearsal. This position is then stored and can be recalled during the presentations.
